6:00PM

Understanding the IceCOLD® Solution

Description: IceCOLD® is a breakthrough synthetic solution which is added to chiller's and other cooling system's refrigerant to remove and prevent oil fouling, which allows the system to run less because the vent air is colder, reduces electric energy cost by approximately 20%+, and reduces equipment repair cost. This presentation is not a product sales presentation, rather an educational forum to discuss a bit of air conditioning history and issues related to oil-fouling, etc.

Presented by: Robert Krull, IceCOLD®

Location:

UCSD Hillcrest Medical Center
MPF Building, Room L-064, 402 Dickinson Street, San Diego

Dinner provided by UCSD Medical Center (Tim Reilly)

**Please RSVP with the number of attendees to
Tim Rielly @ 619-543-8268, or trielly@ucsd.edu**

CSHE is an organization of Healthcare Engineers dedicated to the continued education and development of our members.

Dinner is at no cost to members and first time visitors

**FEEL WELCOME TO INVITE ANOTHER MEMBER OF YOUR HEALTHCARE FACILITY
PLEASE WEAR YOUR FACILITY NAME BADGE**

President:	David McIntosh	david.b.mcintosh@kp.org
Vice President	Jonathan Huls	jonathan.huls@pph.org
Secretary/Treas.	Jeff Hankin	jhankin@sparling.com
