

UC Irvine Healthcare, Orange, CA
Steam Operating Engineer

Full Time, Nights
Salary Range: \$27.15 - \$30.04/ Hour

UC Irvine Healthcare is an exciting place! Ranked as one of the Top 50 hospitals in the nation for the last 11 years (U.S. News and World Report), we are Orange County's only academic medical center, and only Level I trauma center. We hold magnet status for nursing excellence, and 80 of our affiliated doctors are ranked as America's Top Doctors. But we don't just take good care of our patients; our employee benefits are unparalleled, offering three weeks paid vacation, 13 paid holidays, medical benefits active on day one of employment, and a generous pension plan. If you are someone that strives for excellence like we do, then consider joining our team.

Summary:

Under the direction of the Senior Superintendent of Plant, incumbent operates, maintains, and repairs gas and oil fired high pressure boilers, compressors and auxiliary equipment used in the manufacture and distribution of steam.

Qualifications:

Must work overtime or alternate shifts as required to meet hospital needs; ability to interpret schematics, blueprints, shop drawings and manufacturers technical manuals; understanding of regulatory controls and requirements of NEC, NFPA, AQMD, OSHA, and JCAHO standards and have a Current California Driver's License.
