9:00 am Bringing a Condition Monitoring Program In-House Before You Have the Skills In-House to Perform It

Contra Costa Room

Jim Carrel, *CRL, Service Sales Manager, Syserco, Inc.*

You want anytime access to the condition monitoring technologies (vibration, ultrasound, and thermography) by bringing your program in-house, but do not have anyone on your staff with the skills or the time to take it on. This concept discussion is applicable to many of the outsourced technical services for plant operations.

Learn how to leverage local talents as you start either ramp up your own program or bring your established program in-house. Learn the target core competencies and availability requirements for the in-house positions, as well as the challenges that must be overcome in order to increase your success.
